

Covenant Ethics Committee (CEC) Mission Statement

A proactive resource available to CHN member facilities with the mission to facilitate awareness, communication and understanding about the ethical dimensions of health care and residential services among residents, their families and the clinical team in order to improve decision making.

Covenant Health Network (CHN) Ethics Committee

***Tough health care
decisions?***

***Unsure if you are looking
at a care concern with a
broad view of the issues?***

***Paralyzed by an Ethical
Dilemma?***

**CHN Ethics Committee
is here to help
members navigate the
maze of ethical
decision making!**

Covenant Health Network (CHN) Ethics Committee

The Committee is available to:

- Provide ethics case consultation when requested or when issues arise in a specific case that may have institutional or organizational ramifications
- Review and recommend consultations that may involve the ethical conduct and decisions of employees, residents and families.
- Provide retrospective case consultation.
- Education services
- Recommend and review policies and procedures.
- Provide an opportunity to air concerns to see more clearly and think through decisions from different perspectives.

Committee Development

CHN leadership sanctioned the formation of an Ethics Committee comprised of CHN member facility staff in 2006. The committee has been involved in self education with the help of a consultant Dr. Greg Loeben, Bio-Ethics Professor at Midwestern University. The committee is designed to be a proactive resource to support and promote quality, integrity, compassion, collaboration and commitment to our members.

Case Consultation

Consultation information will be kept confidential.

Consultation activities are advisory only in nature. The facility retains full responsibility for the scope, nature and quality of all resident services.
